

Your Title Here

An optional second line

Venue, date

Outline

The problem

What we did

What happened

What is broken

- ▶ State the problem in one line
- ▶ Say who has it and why it matters

A small source line, if you need one.

Why it is hard

- ▶ The obvious approach fails because ...

Why it is hard

- ▶ The obvious approach fails because ...
- ▶ The next one fails because ...

Why it is hard

- ▶ The obvious approach fails because ...
- ▶ The next one fails because ...
- ▶ Which leaves **the gap you are filling**

Outline

The problem

What we did

What happened

The idea

- ▶ One sentence of method
- ▶ One sentence of why it works

your figure here

The one equation

- Say what it means before you show it

$$\mathcal{L} = \mathbb{E} \left[\sum_t \gamma^t r_t \right]$$

Outline

The problem

What we did

What happened

Results

Method	Setting A	Setting B
Baseline	62	55
Ours	78	71

Takeaway

The one sentence you want them to leave with.

Backup: extra detail

- ▶ The thing someone always asks about
